

Concept Proposal: Outdoor Fitness Stations at Pleasant View Park

Prepared by: Kevin Feige on behalf of Boyer Valley Youth Outdoors Club

Purpose

This proposal outlines a preliminary concept for installing outdoor fitness stations at Pleasant View Park. The goal is to provide free, accessible opportunities for residents and visitors to improve their health while enhancing one of Dunlap's most popular recreational amenities.

Project Overview

This concept includes three small bodyweight fitness stations positioned near the walking path.

- **Station 1** (ADA Accessible) Parallel Bars

- **Station 2** Pull-up Bar, Leg Stretch, Multi-Purpose Bench, Push-up/Dip Station

- **Station 3 Plyo Jump**

Alternative Option

Rather than three separate stations, the park could instead feature one larger multi-function fitness station.

Suggested Model:

Important Note

This proposal represents an early concept only. It has not been presented to or approved by the Dunlap City Council. The intent is to gather information, evaluate costs, obtain community feedback, and determine whether the concept should move forward.

Next Steps

- Obtain pricing and layout recommendations from the manufacturer.
- Develop conceptual site layouts.
- Gather community feedback through a survey.
- Present findings to the Dunlap City Council for discussion.
- Explore grant and fundraising opportunities if community support exists.
