

Vision

The overarching goal of the garden is to offer an affordable food source to the Dunlap community that encourages physical activity and healthy eating habits.

The Dunlap Community Garden is located near the intersection of Y St. and S. 1st St. on City property.

The Dunlap Community Garden was established by Hope Beeck, Hazel Gilflores, Sophia Malone, and Ava Van Houten of Boyer Valley Girl Scout Troop 163 (led by Lynnette Dunham).

This garden was the project the girls decided to pursue to earn their Silver Award. The Girl Scout Silver Award is the highest award a Girl Scout Cadette (6th - 8th grader) can earn.

Children's Plots

Children pay a small fee and are able to plant and manage their own plot for the year.

Private Plots

Private plots are reserved annually for private use. Private plot gardeners can plant whatever they like as long as it fits within the garden's guidelines.

Community Plots

Community plots are open to everyone. They are planted and cared for by volunteers. The ground plots are 10' x 5' and the raised beds are 8' x 3'. There are no fees associated with these plots and the produce is free for the taking.

Additional Benefits

Fruit trees will be planted along the border of the garden and raspberry bushes and rhubarb will be planted near the shed. There will be a bench for volunteers to sit and rest, community gardening tools and a communication board at the garden, as well as a hanging basket where members can share ideas, information and produce.

Visit <http://bit.ly/3SedgRp> to access:

- Plot Application
- Volunteer Sign-Up Link
- Garden Rules
- ... and more!

Volunteers are needed to water plants, pick excess produce, check the donation basket for the food pantry, and weed the community plots.
